I'm 24 years old, currently living in Mexico City and recent graduate in Computer Science at Universidad del Valle de México with moderate experience in Java , currently assisting a Full Stack Web Development Bootcamp at Tecnológico de Monterrey, enthusiastic to design user friendly interfaces and using solution-oriented problem approach for building and optimizing user-focused websites and applications, seeking to use my knowledge on front-end and back-end development for a role where I can grow and learn from experienced team members.

Education

Languages

Full Stack Flex Web Development Bootcamp
Tecnológico de Monterrey, Edx - 02/2023- In progress

- Spanish (native)
- English (C1 - Advanced)

Coding Boot Camp at Tecnológico de Monterrey where you get
specialized skills to tap into the rewarding industry that is
software development. Through a fast-paced, immersive curriculum,
I'm learning the the skills needed to become proficient in front- and
back-end technologies.

Bachelor's Degree in Computer Systems Engineering
Universidad del Valle de México - 02/2018 - 05/2022

Design and development of a project based on a self-expense tracker,
 allowing you to register your monthly outgoings and
displaying them on a graphic, which will lead you to make
 better decisions, optimizing your resources to a feasible
extent.(React.js | HTML | CSS | JavaScript | Adobe Xd).
